She brought suit against the District and received a vertict for \$5,000. The District appealed the case, and the Court in General Term cut down the amount to \$1,500. But the old lady never got her money. An injunction was issued against the award by her lawyer, and the mency has remained unused in the Treasury ever since. ### WANTED TO KILL THE PRESIDENT.

A Crank of the College Stripe Ar rested Last Night,

At 10 o'clock last night Howard S. Miller, who, ever since the assassination of President Garfield, has given the Commissioners, the Chief of Police, the District Atterney and many others considerable annoyance, was arrested at his home, No. 218 B street northwest, by Detective Mahon and United States Marshal Joyce and locked up at the Sixth Previnct station. When the offi-cers entered his room Miller was found adden in bed and when awakened be remarked:
"There are those nothaws again to egg

Scoretebry Blahe and Billy Moore.
Millior has been under the constant watch of the Poller Department ever since last May and for the past six. weeks a special man has been detalled at the White House to see that he did not attempt to Injure the President.
While apparently rational in every
other respect, Miller labored under an
ballucination that it devolved upon him to assassinate the President and Secretary Biaine. Colonel Moore Chief of Police, and the District At-torney concluded that it was no longer safe to allow him to remain at liberty. Miller is a man about 40 years of age and has recently been employed as a solicitor for the New York Life In-surance Company, whose office is in the Warner Building on F street. There Is probably no crank that the Govern-ment has had to deal with except Gulteau that has given more cause for worry on the part of the District offi-cials than has Miller. In 1865 he was employed in the Quartermaster-General's Office, and remained there until 1880, when it became necessary to de tail him for duty in Western Virginia. Here he showed symptoms of a falling mind, in consequence of a sunstroke, and in the fall of 1881 he returned to his home in Washington. After the assassination of Garfield be suddenly developed the idea that it was his duty to kill President Arthur and place Secre-tary Frelinghuysen in the Presidential

chair.
